

# TechWatch Presentation Guide

Please review the information below before creating a presentation for your TechWatch meeting. The information will guide you, so you can have a productive and interactive meeting with BARDA's staff. During your TechWatch, BARDA's staff may interrupt your presentation to provide guidance, seek clarification, or ask questions.

## Timeline:

- At least one week prior to your meeting, please connect with the TechWatch team to discuss your presentation
- At least 24 hours prior to your meeting, please upload your final presentation materials to the [BDR Portal](#)

## General:

- The presentation should be 30 to 40 slides
- Provide a description of your technology
- Explain how your technology aligns with the requirements stated in a specific area of interest in BARDA's Broad Agency Announcement
- Provide the Technology Readiness Level
- Indicate whether you have received any FDA feedback on your development plan
- Provide the regulatory strategy related to your technology and the FDA's approval, licensure, or clearance process
- Demonstrate data relative to BARDA
- Provide data to show the effectiveness of your technology
- List the questions you would like answered by BARDA's staff
- As the final slide, please include contact information (name, phone number, email address) for point of contact
